

ELECTRICITY INSTRUCTIONS

If you have purchased electricity for your booth, you will receive a tag to attach to your drop cord identifying that you can plug in to our power source.

Power sources will be in the vicinity of your booth but may be some distance from your exhibit space. It is recommended that you bring a 50' drop cord to ensure that you can plug in.

Electric tags will be included in your vendor packet that you will receive upon check in at the Information Booth at the festival along with your other on-site supplies, i.e., parking pass, wristbands.

Only those vendors who purchased electricity in advance will be allowed to connect to the festival's power sources.

If you need to purchase electricity or have any questions or need additional information prior to festival weekend, please contact the Little River Chamber of Commerce at 843.249.6604. Electricity must be purchased in advance and cannot be purchased on site.

If you need assistance at the festival, please request help at the Information Booth on site.

Thank you
